

Welcome to Noridian Benefit Plan Administrators

Noridian Benefit Plan Administrators (NBPA) is a unique company offering complete services for the development and management of group benefit plans. We specialize in the design, implementation and maintenance of partially self-funded health, disability and dental plans, along with fully insured life, AD&D and long-term disability plans. NBPA is committed to providing quality and cost-effective customer service. We provide top value for your benefit dollar through our long-standing working relationships with reinsurance and stop-loss companies.

A three-tiered approach

To give you and your benefit plan the professional management and quality service it deserves, NBPA has developed a unique and efficient approach to build your group benefit plans. There are three components to this successful formula:

- **Broker.** This is the person closest to you and your business, who knows and understands your needs. The broker works with you to determine what benefits work best with your operation.
- **NBPA Minneapolis Office.** We work with your broker and NBPA Fargo to assure the highest level of professional service in all areas of plan administration, from reinsurance and banking arrangements to claims payments.
- **NBPA Fargo Office.** Noridian Benefit Plan Administrators is a third party administrator that services all types and sizes of group benefit plans. NBPA's claims-paying professionals, information infrastructure and commitment to excellence provide you with the high level of service you expect and deserve.

Through this multi-level approach, you're in charge of your benefit plan. You decide what benefits to offer and how the plan operates. But you're not alone. Every step of the way, NBPA is with you, providing assistance and helping develop solutions to your benefit needs.
